Making Solutions Happen[®]

Making Solutions Happen®

For over 30 years, K-Tec Systems has helped companies minimize wasted yields and mitigate costly recalls by providing products that measure and control temperature, pressure and flow during their manufacturing processes. Headquartered in Southeastern Michigan, our company is a global manufacturer, distributor, and engineering integrator of temperature sensors, wire harnesses, and control systems.

At K-Tec Systems, our dedicated team and our specialized partners engineer and build solutions to our customers' specifications and needs. Our passion is to help our customers collect accurate data, not just numbers.

I invite you to connect with our team by email, over the phone, on LinkedIn, or visit our website to discover how K-Tec Systems' solutions can help you make quality products while supporting a high level of productivity. We are looking forward to making solutions happen for your company!

CATHY KOCH
Founder, President & CEO

WHO WE ARE

At K-Tec Systems, we strive to provide our clients with the highest quality and most innovative solutions to control their temperature, flow and pressure measurement systems.

OUR VISION

K-Tec Systems is committed to accurate test measurements leading to zero waste and zero recalls.

OUR TEAM

K-Tec Systems embodies an inclusive and collaborative team culture that is based on creativity, learning and growth while staying focused on quality and customer experience.

WHO WE SERVE

- » Aerospace
- » Chemical
- » Energy
- » Food & Beverage
- » Government & Defense
- » Heat Treatment
- » Medical & Pharmaceutical
- » Mobility & Transportation

“She believed she could and so she did.”

Cathy Koch | Founder, President & CEO

K-Tec Systems offers an expansive line of products and solutions that span many industries worldwide. You will find our products in vehicle testing, wind tunnels, R&D centers, and on medical equipment, brew tanks, ice cream shop freezers, household appliances, and so much more.

OUR CUSTOMERS

ROUSH.

CTL AEROSPACE, INC.

WHAT WE DO

- » Engineering
- » Design
- » Prototyping
- » Manufacturing of thermocouples & wire harnesses
- » Distribution of temperature, pressure and flow control systems
- » Test stands design & manufacturing
- » Installing & servicing control systems and solutions
- » On-site/off-site installation
- » Sensor & wire certification

OUR PRODUCTS

- » Temperature sensors
- » Color sensors
- » Pressure sensors
- » Connectors & compression fittings
- » Wire & wire harnesses
- » Controllers & PLCs
- » Control panels
- » Fluid measurement probes
- » Flow management & airflow sensors
- » Heaters
- » LED light sensors
- » Test equipment
- » EV tests
- » Emission test stands
